possible line item requirement.

Friendly Amendment: support investigation and implementation of putting in disposal bins

Discussions

Community Day

Possibly taking place on 2nd week of AP exams in may, when fewer AP exams are being taken. Different TAs could take part, without obligation. More info? Possible mandatory activity. Pairing, tripling of TAs for different projects, teachers with interest/time could take larger part, those without could help supervise. Community Service Information Fair? Provide info for the different projects, allow for further planning of community day, as well as letting students make their own decisions about service.

Terrace Discussion

Possible use as ampitheater, art gallery, multipurpose performance and art space on the terraces. Maybe bring in outside HB performance. Garden space, grow food or flowers. Greenhouse? Investment that lets us have partnership with AFAC, production of veg. Outdoor classroom (could combine with ampitheater)? Labyrinth!! Picnic tables, outdoor lunch. Only first terrace accessible from outside. Science experimentation platform. No roof, be careful of percipitation. Possible covers for terraces. Study booths. Could help focus. Aesthetic reason for no sports netting. Could veto? Maybe move the HVAC and solar panels. All spaces useful for outdoor learning, shared spaces within the school community. Multipurpose spaces. Map on the floor? Maybe no sports? Disruptive to classes, not enough space. Inter terrace stairs? No access from the community for top three levels. Canvas areas, rotational over year. Heat lamps for the winter? We require.... A shrubbery! Electrical outlets. Badminton? Volleyball? Slide!! Rock climbing? Big chessboard. Twister? Shuffleboard? Running!!

Chair: Salome

Co Chair: Jacob

Secretary: Tom
